NOTE:
SCAT summary data plotted by grid cell reflect the heaviest degree of shoreline oiling located within that cell regardless of length or area.

Summary data plotted as lines on this map should not be used to calculate lengths of shoreline oiling.

The information presented here, is primarily for response purposes and it is based on the best available SCAT data at the time of production. Adjustments to SCAT field information may be made in the future based on further quality/technical reviews. The information presented here, may be adjusted accordingly to reflect this.
