Note: SCAT summary data plotted by shoreline segment and reflect the heaviest zone of shoreline oiling located within that segment regardless of length.

Summary data plotted as lines on this map should not be used to calculate lengths of shoreline oiling.

The information presented here is primarily for response purposes and is based on the best available SCAT data at the time of production. Adjustments to SCAT field information may be made in the future based on further quality/technical reviews. The information presented here may be adjusted accordingly to reflect this.
