**Accessing Grants Online using Internet Explorer 11**

1. With the default Grants Online login screen opened, locate and click (or tap) the Internet Explorer icon.

2. Prior to executing the next step, go to Internet Options (located on the Tools menu) and make certain the option to *Delete Browsing History on Exit* is not selected. If it is, the user will have to redo the Compatibility View Settings each time s/he closes out his/her browser.

3. In the upper right-hand corner of the screen, click (or tap) the ☰ icon.
   –or–
   From the Menu bar, click (or tap) **Tools**.

4. Select the **Compatibility View Settings** option.
5. In the box below the **Add this website** header, type *https://grantsonline.rdc.noaa.gov*. Click (or tap) the **Add** button.

6. In the box below the heading **Websites you’ve added to Compatibility View**, noaa.gov is visible.
7. To close the Compatibility View Settings window, click (or tap) the in the upper right-hand corner.

   --or--

   Use the Close button at the bottom of the screen.

8. Reopen the browser and type https://grantsonline.rdc.noaa.gov into the browser's address box. Typically this redirects the user to the following URL: https://grantsonline.rdc.noaa.gov/flows/home/Login/LoginController.jspf If the redirect does not occur, a list of websites is visible. From that list, select either Grants Online or Login under the Grants Online – NOAA header.
