00056	3/9/2020	Fisheries	Data Collection and Comparability Analysis Support	NMFS is in the process of collecting data on bycatch of PLMRs and applicable shark catch to analyze for possible action under the HSDFMFA. NMFS collects data on the three years of data prior to issuance of the next report, i.e., 2018, 2019, and 2020. Prior to the identification of a nation, NMFS contacts the nation to ask if it has regulations in place to address the bycatch of concern. If the nation does not reply or does not have regulations in place, the nation will likely be identified. If the nation has a regulatory program in place, NMFS must conduct a comparability analysis of the nation's regulations with applicable U.S. regulations. In addition, if a nation is identified and subsequently puts regulations in place, NMFS must conduct a comparability analysis of those regulations. Contractor support is necessary to carry out these analyses, as applicable, and the initial data collection.	None	Yes	Small Business	TBD
