Subject: Diminishing our democracy

Mr. Jacobs,

I am beyond dismayed that your agency capitulated and repudiated the Birmingham Weather Service for their truth telling. It is not a minor thing. The so-called president acts like a petulant despot and NOAA doesn't stand up for the truth?

I don't understand who was responsible. My sympathy and support to the NWS and NOAA employees who had no choice in the matter. But someone in the NOAA did. You? Shame on whoever made this decision. Shame.
