Subject: How Pathetic

Neil Jacobs

How could you stoop so low? How do you sleep at night knowing you are a puppet who lies to the American public? Donald Trump is an absolute idiot who lies every day. Now you have flees for sleeping in his bed. All time low that scientists now have to lie to appease a 10 year old spoiled child. I honestly cannot believe how low our culture has fallen. What happened to being honest? Your legacy is that you are a wimp and a liar for not standing up and telling the truth. The shame is on you.
