Subject: NOAA throws its own employees under the bus to save face for President Trump

Dear Mr. Jacobs:

Your cowardice and lack of integrity in failing to stand up for the accurate statements of your own forecasters and scientists regarding President Trump's wholly inaccurate warning that Alabama would be hit harder by Dorian than expected is reprehensible under any circumstances. As any real scientist will tell you, science is not Democratic or Republican, it is the truth, and it is verifiable. If you haven't the moral courage and integrity to tell the truth, then please resign so someone better prepared for the job can take your place. I don't know you, but I do know your behavior disgusts me. You threw your own people under the bus to save your own skin, and that's the mark of a real coward. America deserves better. I stand with all the good people at NOAA and the NWS, not cowards such as yourself.

Gaylord Hart
