**Subject:** NOAA response

Dear Neil,

The response by the NOAA to Trump's completely false behavior this past week is astounding and extremely disappointing. Trump is arguably the worst president in the history of the United States and is doing more damage to our democracy and our country than could have been imagined a few years ago. We cannot, in good faith, aid and abet the ravings of a narcissistic dictator with a fragile ego. You are simply enabling behavior that should lead to investigation to reveal the real facts and result in negative consequences for the perpetrator. Our country is falling apart and you are part of the problem. You and your cohort will adorn the pages of the history books as spineless sycophants who allowed our democracy to die in darkness.

Best Regards,
