Subject: Dorian Weather Predictions

Who signed the statement saying Trump was right in predicting that Dorian would affect Alabama? Trump knows nothing about weather predictions. Alabama advised the state was not in danger. Who are you trying to appease? Trump? Why not just keep weather predictions to the weather service.

This statement unsigned is not appropriate. You should have said Trump does not know how to predict weather.

trump does not know anything about trade wars.

trump does not know anything about the harm he is doing in the world, harm he is doing to children he has ripped away from parents.

DO NOT GIVE TRUMP THE ADVANTAGE OF KNOWING HOW TO PREDICT THE WEATHER. I AM VERY DISAPPOINTED IN NOAA.
