**Subject:** Re: ROC LTO - Spring-run tables

Hi Brian,

A quick heads up. It does not appear that Kristin's effects table for SR was added into the Delta table. I have spoken with Norma, and we are working on fixing that. Her tables are in the share drive at: R:\Draft BiOp\2\_ESA\2.8-2.9 Integration and Synthesis and Conclusion\Spring-run Tables\Delta I&S tables from KB for species SR nh 4.9.2019 should you need them.

Jeff

Hi Norma,

Please combine the attached spring-run tables into one table in a standalone MS word document? The top to bottom order should be Shasta, Trinity, Delta, Stanislaus, San Joaquin.

Division Leads,

Please make sure any revisions you already made, but are not reflected in the attached versions, or plan to make later on get incorporated into the combined table which will be in the I&S draft. Let me know if you have revisions to make.

(fyi, all the tables are saved here: R:\Draft BiOp\2\_ESA\2.8-2.9 Integration and Synthesis and Conclusion\Spring-run Tables)

Thanks,  
Brian
