Hi Eric,

I was planning to send them to you with appropriate ROC_ON tags and then let you distribute to the team inside of SWFSC. How does that sound?

Thanks Noble. When you say "out this morning" does that mean sharing them, and with who?

Eric

Hi Eric,

Just wanted to let you know that we have been making some progress and should have a set of preliminary runs out later this morning. I haven't had much time to dig into the "why", so that will likely require a little time over the next couple days to dig into it a bit more.

Thanks and hope you had a relaxing weekend,

Noble
